

## Project Design Phase-II

### Technical Architecture

Date	11 October 2022
Team ID	PNT2022TMID52976
Project Name	Estimate the Crop Yield using Data Analysis
Maximum Marks	4 Marks

#### Technical Architecture:

- Data is acquired from the user for analysis. It is then cleaned and prepared and a data report is formed.
- The collected data is then visualized using various plots on the IBM Cognos dashboard
- This is a very effective way in helping farmers to evaluate the crop yields and to make improvements
